

## Experiences in a Local Munich Elementary School

The Lee family

Big thanks to everyone who made this trip come true and so wonderful. Anya has been studying in TES GS since Flex 0. She experienced kindergarten in Vienna, but this is the first time she joined an elementary school in Germany. It was the Kleinfeldschule in Germering, a small city close to Munich.

Anya was welcomed by warm, friendly, and cheerful students. I didn't even have to find the classroom on the first day. They were holding her hands, talking, and all gone with the bell sounds like a flash. She fit in the class right away and made many good friends. Luckily, we also joined the sports day and Sommerfest, and I even had a Q & A time with the class. Those adorable children asked me a million questions. Definitely Anya was the host and translator. It was really a great opportunity to have a cultural exchange.

We both had a great time inside and outside school. Anya gained more confidence in her German by realizing how much she could help and enjoy herself throughout the whole trip. She is no longer the little girl under my care; now we are a team.
